The City of Clifton continues to work diligently to make the COVID-19 vaccination registration system as fair as possible.

Please take note of the updated process when registering for the COVID-19 vaccine:

If you have internet access, you should **first** pre-register with the New Jersey Vaccine Scheduling System (NJVSS) at <https://covidvaccine.nj.gov/>. You will be asked a series of questions to determine when you may be eligible to receive the vaccine. When it is your turn to register, you will be notified via email, and you will be able to choose any vaccination site throughout the State with available appointments. The Clifton Health Department **does not** have control over how appointments are prioritized in the State's NJVSS system or when you may be eligible for an appointment.

The Clifton Health Department will also be using the Appointment Plus Registration Portal to allow **eligible** people to register to receive the vaccine, but please understand that we **cannot** immediately guarantee you an appointment at our clinics if you use this system. Availability of appointments depends on the number of vaccine doses we receive from State, which may vary week to week. When we receive confirmation from the State about the number of doses we will receive, we will open the Appointment Plus system each week and alert the community via our website and social media pages that the system is open. We are certain that these appointments will be filled very quickly due to high demand, so please be patient and continue to look for other sites. Keep in mind there are additional vaccination locations throughout Passaic County and the State. <https://covid19.nj.gov/pages/covid-19-vaccine-locations-for-eligible-recipients>

If you are a Clifton or Little Falls resident without access to the internet, and need assistance, please call 973-470-2039. Please note that this is an automated system and a Health Department employee will return your call as soon as possible.

As a reminder, you will NOT be able to be vaccinated at our vaccination clinic without an appointment. There are NO EXCEPTIONS.

Although we understand your frustration, please continue to be patient due to the overwhelming and unprecedented demand for this vaccine.

The Clifton Health Department is a contractual health agency serving the Township of Little Falls.

Covid-19 Vaccination Statement 1-17-2021
