**Updated: May 28, 2021 12:00pm**

*(Clifton)* - The Clifton Health Department, in consultation with the City Manager, Mayor and Council, understands that residents are concerned about the Coronavirus (COVID-19) pandemic.

The City of Clifton has had **21 new COVID-19 cases since last Sunday, 5/23** bringing the total COVID-19 case count to **12,139. 2 cases were found to be out of our jurisdiction and transferred out; these cases have been removed from the overall spreadsheet count.**

**With a heavy heart, we are announcing an additional 5 COVID-19 deaths, involving the following individuals: a 47-year old male, a 60-year old male, a 72-year old male, an 84-year old female, and a 92-year old male. Our sincerest condolences go out to the loved ones of these community members, and the loved ones of every individual who has lost their life to this virus.**

**The City of Clifton now has a total of 263 deaths.**

**Of these deaths, 45 have involved residents at the Daughters of Miriam Nursing Home. Please be advised that this number is reflective of the deaths identified in the Communicable Disease Reporting and Surveillance System.**

**The City of Clifton has administered the following COVID-19 vaccine doses between January, 6, 2021 and May 26, 2021:**

<b>1<sup>st</sup> doses</b>	<b>7,841</b>
<b>2<sup>nd</sup> doses</b>	<b>6,445</b>
<b>Total number of doses</b>	<b>14,296</b>

**In New Jersey, effective today, 5/28, face masks are no longer required in most outdoor settings and indoor settings. However, based on CDC guidance, unvaccinated individuals should continue wearing a face covering in public spaces - especially indoors - to protect yourself and others.**

**Face masks are still required for all individuals on public transportation, health care facilities, including nursing homes and office-based health care settings, child care centers,**

**K-12 schools, summer camps, homeless shelters, and correctional facilities, which remain subject to existing requirements and/or recommendations.**

**In addition, businesses may continue to require face coverings for employees, customers, and guests. Businesses are not permitted to restrict the use of face masks by their staff, customers, or visitors.**

**Indoor worksites not open to the public, such as commercial office spaces and manufacturing and warehousing facilities, must continue following existing health and safety protocols for employers including mask mandates. Masks will continue to be required in State offices, including public offices such as Motor Vehicle Commission agencies.**

**Beginning Friday, June 4, at indoor worksites closed to the public, employers may allow employees who can verify they are vaccinated to not wear a face mask and social distance. However, employees at State offices and worksites will continue to be required to wear masks and social distance until further notice.**

**Effective 5/19, the travel advisory has been lifted.**

**With regards to domestic travel, New Jersey residents returning home and travelers visiting New Jersey do not need to quarantine, but should follow travel guidance from the CDC, the NJ Department of Health, and all local health and safety protocols of their travel destination. The CDC continues to recommend delaying travel until you are fully vaccinated. The CDC also currently recommends that unvaccinated individuals traveling domestically get tested 1-3 days before their trip, 3-5 days after travel, and stay home and quarantine for 7 days after travel, even with a negative test. If no test is taken, a 10-day quarantine is recommended. Travelers should continue to wear masks and monitor for symptoms. For more information, refer to the CDC's guidance for domestic travel, found here: <https://www.cdc.gov/coronavirus/2019-ncov/travelers/travel-during-covid19.html>**

**With regards to international travel, the CDC requires all air passengers arriving in the United States from a foreign country to get tested for COVID-19 no more than 3 days before their flight departs and to present the negative result or documentation of having recovered from COVID-19 to the airline before boarding the flight. The CDC continues to recommend delaying travel until you are fully vaccinated. The CDC also currently recommends that unvaccinated individuals traveling internationally get tested 1-3 days before their trip, 3-5 days after travel, and stay home and self-quarantine for 7 full days after travel, even if you test negative. If no test is taken, a 10-day quarantine is recommended. Travelers should continue to wear masks and monitor for symptoms. For**

**Effective 5/19, the outdoor mask mandate has been lifted, although unvaccinated individuals should continue to exercise caution.**

**Please take note of recent changes to indoor and outdoor gathering limits, which went into effect on 5/19. The indoor gathering limits are as follows:**

- **General indoor gatherings must be limited to 50 people. This limit applies to general social gatherings in private settings, such as parties in people's homes**
- **Indoor business gatherings and organized gatherings (e.g. conferences, expositions, meetings of fraternal organizations, job trainings, events hosted by senior centers) are limited to 250 people, so long as social distancing can be maintained**
- **Indoor gatherings for religious services and celebrations including wedding ceremonies, funerals, and memorial services that involve a religious element must limit capacity to a number that ensures all individuals or groups can remain six feet apart**
- **Indoor wedding receptions, wedding ceremonies, funerals, and memorial services that do not involve a religious element as well as private catered events such as proms are limited to 250 people per room, excluding venue employees, so long as social distancing can be maintained**
- **Indoor sports practices and competitions may exceed the general indoor gathering limit under specific exceptions, found here: <https://covid19.nj.gov/faqs/nj-information/reopening-guidance-and-restrictions/can-organized-sports-resume-what-are-the-safety-requirements-for-sports-facilities>**
- **Indoor performances at entertainment centers, including movie theaters, performing arts centers, and other concert venues, must be limited to 250 people, not including staff**
- **Large venues, including sports and entertainment venues, with a fixed seating capacity of 1,000 or more may host events at 30 percent capacity indoors; the capacity limit excludes participants, such as athletes and performers, and staff, such as coaches and ushers, but include patrons and other members of the public. Individuals or groups of individuals that purchase tickets together must remain six feet apart**
- **Indoor meetings of addiction support groups, such as Alcoholics Anonymous and Narcotics Anonymous, are limited to 250 people per room so long as social distancing can be maintained**

- **Legislative and judicial proceedings are not subject to the limits on indoor gatherings**

**The outdoor gathering limits are as follows:**

- **There is NO capacity limit for outdoor gatherings. However, social distancing MUST be practiced**
- **Outdoor performances at outdoor entertainment centers, including movie theaters, performing arts centers, and other concert venues, are limited to a number that ensures that all people or groups of people can remain six feet apart**
- **Large venues, including sports and entertainment venues, with a fixed seating capacity of 1,000 are limited to a number that ensures that all people can remain six feet apart, except individuals who purchase or reserve tickets together may be seated together but must be six feet away from all other groups or individuals in all directions**

Everyone who lives, works or studies in New Jersey, ages 12+, is now eligible to be vaccinated. Currently, ONLY the Pfizer vaccine is authorized for individuals 12-17. Please remember that minors must be accompanied by an adult and have parent/guardian consent.

Beginning 4/29, walk-in vaccinations are open to all New Jerseyans age 16+ at all six vaccine mega-sites during select times. For more information, please visit <https://covid19.nj.gov/pages/vaccine>

New Jersey Transit has recently launched VAXRIDE, a system offering free tickets for rides to and from COVID-19 vaccine appointments for New Jersey residents. For more information, please visit [njtransit.com/vaxride](http://njtransit.com/vaxride).

The most recent list of locations offering the vaccine, as well as registration instructions can be found here: <https://covid19.nj.gov/pages/covid-19-vaccine-locations-for-eligible-recipients>

If you are a Clifton or Little Falls resident without access to the internet, and need assistance, please call 973-470-2039. Please note that this is an automated system and a Health Department employee will return your call as soon as possible. Although we understand your frustration, please continue to be patient due to the overwhelming and unprecedented demand for this vaccine.

If you need support with the New Jersey Vaccine Scheduling System, you can:

- Complete an online form using this link: [covid19.nj.gov/vaccinehelp](https://covid19.nj.gov/vaccinehelp) or
- Call 1-855-568-0545 for phone support

Due to a high volume of total cases, the “follow-up status” column on our spreadsheet attachments has been removed. We will still provide information on which cases are asymptomatic and those that are deceased.

Due to an increasing volume of cases, you will notice that many of the boxes in the case information attachment are labeled “under investigation.” We are still in the process of following-up with individuals and obtaining this data. We will continue to update this spreadsheet as this information becomes available.

It is very important to remember the following preventative steps you can take to reduce the risk of spreading COVID-19:

Practice handwashing regularly for at least 20 seconds

- Wear a face covering in public settings
- Cover your cough and sneeze with a tissue
- Avoid touching your eyes, nose, and mouth
- Clean and disinfect frequently touched objects and surfaces

In addition, be sure to practice the following social distancing measures:

- Keep a distance of at least 6 feet with other people
- Avoid unnecessary physical contact, such as handshaking
- Avoid attending crowded events and social gatherings. Consider replacing in-person gatherings with video chatting, voice messaging and phone calls

As a reminder to residents, if you are being tested, remain home while awaiting your results, whether or not you're showing symptoms, to avoid potentially infecting other people. Also remember, you cannot test out of quarantine. A negative test means you are negative at the time of testing and you can still test positive during the quarantine period.

In the attachment, you will notice that we have included ALL cases we have received so far, including Little Falls cases and transferred cases. This does not change the current total case count, and it is being done for our convenience in order to better track our cases.

If you receive a call from the Clifton Health Department for case follow-up, there are specific questions we would ask. We would **never** ask for your social security number, so if you receive a call from anyone claiming to be a representative of the Clifton Health Department who asks for your social security number, please hang up immediately and report it to the Police Department at 973-470-5911.

As of 4/3/2020, the CDC recommends wearing cloth face coverings in public settings where other social distancing measures are difficult to maintain (e.g., grocery stores and pharmacies). The CDC advises the use of simple cloth face coverings to slow the spread of the virus and help people who may have the virus and do not know it from transmitting it to others. Cloth face coverings should: fit snugly but comfortably against the side of the face, be secured with ties or ear loops, include multiple layers of fabric, allow for breathing without restriction, be able to be laundered and machine dried without damage or change to shape.

**Please note: the Health Department does not have the capacity to distribute masks, sanitizers, and other supplies to the public.**

The CDC has recently expanded its list of COVID-19 symptoms to include the following:

- Fever
- Cough
- Shortness of breath or difficulty breathing
- Chills
- Repeated shaking with chills
- Muscle pain
- Headache
- Sore throat
- New loss of taste or smell

Some people who are exposed may show mild symptoms, while others may show severe illness. Remember that symptoms can appear **anywhere from 2-14 days after an exposure.**

For general questions pertaining to COVID-19, please call the New Jersey Department of Health COVID-19 Hotline at 211 or text NJCOVID to 898-211. Please also feel free to visit <https://covid19.nj.gov/> for more information. For mental health-related concerns during COVID-19, call the Disaster Distress Hotline at 1-800-985-5990 or text “talk with us” at 66746. If you
