Updated: June 4, 2021 12:00pm

(Clifton) - The Clifton Health Department, in consultation with the City Manager, Mayor and Council, understands that residents are concerned about the Coronavirus (COVID-19) pandemic.

The City of Clifton has had **21 new COVID-19 cases since last Friday, 5/28** bringing the total COVID-19 case count to **12,160. 1 case was found to be out of our jurisdiction and transferred out and 1 case was found to be a duplicate of an existing case; these cases have been removed from the overall spreadsheet count.**

With a heavy heart, we are announcing an additional 5 COVID-19 deaths, involving the following individuals: a 60-year old female, a 67-year old female, a 67-year old male, an 86-year old female, and a 94-year old male.

Please note that these deaths did NOT occur over the last week, but over the last few months.

Our sincerest condolences go out to the loved ones of these community members, and the loved ones of every individual who has lost their life to this virus.

The City of Clifton now has a total of 268 deaths.

Of these deaths, 45 have involved residents at the Daughters of Miriam Nursing Home. Please be advised that this number is reflective of the deaths identified in the Communicable Disease Reporting and Surveillance System.

The City of Clifton has administered the following COVID-19 vaccine doses between January, 6, 2021 and June 2, 2021:

1st doses	7,856
2nd doses	6,493
Total number of doses	14,349

Effective Friday, June 4, 2021, indoor gathering limits have been removed. The New Jersey Department of Health reminds us that COVID-19 remains a threat, particularly at indoor

gatherings with unvaccinated individuals, and encourages us to follow the safety tips described in this article: <https://covid19.nj.gov/faqs/nj-information/reopening-guidance-and-restrictions/how-can-people-safely-get-together-what-are-the-limits-for-indoor-and-outdoor-gatherings>

There are no capacity limits for outdoor gatherings or outdoor performances.

Beginning Friday, 6/4, at indoor worksites closed to the public, employers may allow employees who can verify they are vaccinated to not wear a face mask and social distance. However, employees at State offices and worksites will continue to be required to wear masks and social distance until further notice.

Effective 5/28, face masks are no longer required in most outdoor settings and indoor settings. However, based on CDC guidance, unvaccinated individuals should continue wearing a face covering in public spaces - especially indoors - to protect themselves and others.

Face masks are still required for all individuals on public transportation, health care facilities, including nursing homes and office-based health care settings, child care centers, K-12 schools, summer camps, homeless shelters, and correctional facilities, which remain subject to existing requirements and/or recommendations.

In addition, businesses may continue to require face coverings for employees, customers, and guests. Businesses are not permitted to restrict the use of face masks by their staff, customers, or visitors.

Indoor worksites not open to the public, such as commercial office spaces and manufacturing and warehousing facilities, must continue following existing health and safety protocols for employers including mask mandates. Masks will continue to be required in State offices, including public offices such as Motor Vehicle Commission agencies.

Effective 5/19, the outdoor mask mandate has been lifted, although unvaccinated individuals should continue to exercise caution.

Effective 5/19, the travel advisory has been lifted.

With regards to **domestic travel**, New Jersey residents returning home and travelers visiting New Jersey do not need to quarantine, but should follow travel guidance from the CDC, the NJ Department of Health, and all local health and safety protocols of their travel destination. The CDC continues to recommend delaying travel until you are fully vaccinated. The CDC also

currently recommends that unvaccinated individuals traveling domestically get tested 1-3 days before their trip, 3-5 days after travel, and stay home and quarantine for 7 days after travel, even with a negative test. If no test is taken, a 10-day quarantine is recommended. Travelers should continue to wear masks and monitor for symptoms. For more information, refer to the CDC's guidance for domestic travel, found here: <https://www.cdc.gov/coronavirus/2019-ncov/travelers/travel-during-covid19.html>

With regards to **international travel**, the CDC requires all air passengers arriving in the United States from a foreign country to get tested for COVID-19 no more than 3 days before their flight departs and to present the negative result or documentation of having recovered from COVID-19 to the airline before boarding the flight. The CDC continues to recommend delaying travel until you are fully vaccinated. The CDC also currently recommends that unvaccinated individuals traveling internationally get tested 1-3 days before their trip, 3-5 days after travel, and stay home and self-quarantine for 7 full days after travel, even if you test negative. If no test is taken, a 10-day quarantine is recommended. Travelers should continue to wear masks and monitor for symptoms. For more information, refer to the CDC's guidance for domestic travel, found here: <https://www.cdc.gov/coronavirus/2019-ncov/travelers/international-travel-during-covid19.html>

Everyone who lives, works or studies in New Jersey, ages 12+, is now eligible to be vaccinated. Currently, **ONLY** the Pfizer vaccine is authorized for individuals 12-17. Please remember that minors must be accompanied by an adult and have parent/guardian consent.

New Jersey Transit has recently launched VAXRIDE, a system offering free tickets for rides to and from COVID-19 vaccine appointments for New Jersey residents. For more information, please visit njtransit.com/vaxride.

The most recent list of locations offering the vaccine, as well as registration instructions can be found here: <https://covid19.nj.gov/pages/covid-19-vaccine-locations-for-eligible-recipients>

If you are a Clifton or Little Falls resident without access to the internet, and need assistance, please call 973-470-2039. Please note that this is an automated system and a Health Department employee will return your call as soon as possible.

If you need support with the New Jersey Vaccine Scheduling System, you can:

- Complete an online form using this link: covid19.nj.gov/vaccinehelp or
- Call 1-855-568-0545 for phone support

The Clifton Health Department is a contractual health agency serving the Township of Little Falls.

For a list of most Governor Murphy's current and past executive orders related to the COVID-19 pandemic, please refer to this link: <https://nj.gov/infobank/eo/056murphy/>

Residents can find helpful resources (e.g. health insurance, job assistance, food assistance, etc.) that provide support during the COVID-19 pandemic here: <https://covid19.nj.gov/faqs/nj-information/assistance-and-benefits/what-types-of-benefits-or-assistance-are-available-to-me-during-the-coronavirus-outbreak>

For a list of locations near you that are offering COVID-19 testing, please refer to this link for the most up-to-date information: <https://covid19.nj.gov/pages/testing#test-sites>

Due to a high volume of total cases, the “follow-up status” column on our spreadsheet attachments has been removed. We will still provide information on which cases are asymptomatic and those that are deceased.

Due to an increasing volume of cases, you will notice that many of the boxes in the case information attachment are labeled “under investigation.” We are still in the process of following-up with individuals and obtaining this data. We will continue to update this spreadsheet as this information becomes available.

It is very important to remember the following preventative steps you can take to reduce the risk of spreading COVID-19:

Practice handwashing regularly for at least 20 seconds

- Cover your cough and sneeze with a tissue
- Avoid touching your eyes, nose, and mouth
- Clean and disinfect frequently touched objects and surfaces

In addition, be sure to practice the following social distancing measures, if you are not vaccinated:

- Keep a distance of at least 6 feet with other people
- Avoid unnecessary physical contact, such as handshaking
- Avoid attending crowded events and social gatherings

As a reminder to residents, if you are being tested, remain home while awaiting your results, whether or not you're showing symptoms, to avoid potentially infecting other people.

In the attachment, you will notice that we have included ALL cases we have received so far, including Little Falls cases and transferred cases. This does not change the current total case count, and it is being done for our convenience in order to better track our cases.

If you receive a call from the Clifton Health Department for case follow-up, there are specific questions we would ask. We would **never** ask for your social security number, so if you receive a call from anyone claiming to be a representative of the Clifton Health Department who asks for your social security number, please hang up immediately and report it to the Police Department at 973-470-5911.

Please note: the Health Department does not have the capacity to distribute masks, sanitizers, and other supplies to the public.

The CDC has recently expanded its list of COVID-19 symptoms to include the following:

- Fever
- Cough
- Shortness of breath or difficulty breathing
- Chills
- Repeated shaking with chills
- Muscle pain
- Headache
- Sore throat
- New loss of taste or smell

Some people who are exposed may show mild symptoms, while others may show severe illness. Remember that symptoms can appear **anywhere from 2-14 days after an exposure.**

For general questions pertaining to COVID-19, please call the New Jersey Department of Health COVID-19 Hotline at 211 or text NJCOVID to 898-211. Please also feel free to visit <https://covid19.nj.gov/> for more information. For mental health-related concerns during COVID-19, call the Disaster Distress Hotline at 1-800-985-5990 or text “talk with us” at 66746. If you wish to get in touch with the Clifton Health Department for general COVID-19 questions, please email Health Educator Layal Helwani at Lhelwani@cliftonnj.org.
