**Please note that information highlighted in yellow reflects new and updated information.**

**Updated: March 4, 2022**

*(Clifton)* - The Clifton Health Department, in consultation with the City Manager, Mayor and Council, understands that residents are concerned about the Coronavirus (COVID-19) pandemic.

**\*CASE REPORTING\***

**Below are the case numbers for the previous week, as well as the overall case count generated by CDRSS reports. Remember that these numbers do NOT account for at-home tests, duplicates, and cases that are out of jurisdiction.**

**2/25/22 through 3/3/22: 51 new cases**

**The total number of COVID-19 cases for the City of Clifton is 23,218.**

**With a very heavy heart, we are announcing an additional 9 COVID-19-related deaths, involving the following individuals: a 68-year old female, a 74-year old male, a 78-year old male, an 81-year old male, an 89-year old male, a 90-year old female, a 90-year old male, a 93-year old male, and a 97-year old male.**

**2 of these deaths took place within the last week and 7 of these deaths took place between January and February of 2022. As a reminder, the Health Department does not have control over how and when COVID-19 deaths are reported.**

**The total number of COVID-19-related deaths in the City of Clifton is 341.**

**\*VACCINATIONS ADMINISTERED BY THE CITY OF CLIFTON\***

**The City of Clifton has administered the following COVID-19 vaccine doses between January 6, 2021 and March 3, 2022:**

<b>1<sup>st</sup> doses</b>	<b>8,197</b>
<b>2<sup>nd</sup> doses</b>	<b>7,159</b>
<b>3<sup>rd</sup> doses</b>	<b>66</b>
<b>Booster doses</b>	<b>1,716</b>

Email: jbiegel@cliftonnj.org

<b>Total number of doses</b>	<b>17,138</b>
------------------------------	---------------

Effective December 17, 2021, the Clifton Health Department is utilizing City of Clifton COVID-19 data recorded in the Communicable Disease Reporting Surveillance System (CDRSS). CDRSS is the system used by the NJ Department of Health to track COVID-19 cases. While the Health Department was already using this system for case reporting, we would initially ensure that any cases that were found to be out of jurisdiction, and any cases found to be duplicates of existing cases were removed from the weekly case counts and overall case count. Our goal was always to provide the community with the most accurate representation of COVID-19 in the City of Clifton.

Unfortunately, due to this surge and because the NJ Department of Health directed local health departments to focus their efforts on prioritizing and investigating COVID-19 cases involving individuals ages 18 and under as well individuals ages 65 and older, it is no longer feasible for the Health Department to account for transferred and duplicate cases in its case reporting. Going forward, we will provide updates to the age/gender breakdown based on the numbers on CDRSS and will continue to provide the bar graph spreadsheet, but are distinguishing the change in data reporting effective 12/17/2021.

**\*GUIDANCE PUT OUT BY THE CDC AND NJ DEPARTMENT OF HEALTH REGARDING UPDATED ISOLATION AND QUARANTINE TIMES\***

New guidance regarding isolation and quarantine timeframes have recently been issued by the CDC and NJ Department of Health. Please note that this information applies to the general public. Also note that these guidelines vary from school guidelines which can be found here: <https://covid19.nj.gov/faqs/nj-information/reopening-guidance-and-restrictions/are-schools-open-what-are-the-safety-requirements>

\*Isolation information updated by the NJ Department of Health on 1/7/2022\*:

If you tested positive for COVID-19 (REGARDLESS of vaccination status):

- You should stay home and isolate for at least 5 days.
- If you have no symptoms or your symptoms are resolving after 5 days, you can leave your house but should continue to wear a mask around others for 5 additional days, avoid travel if possible, and avoid places where you can't wear a mask like a restaurant.
- If you can't wear a mask, you should isolate for a full 10 days.

*The Clifton Health Department is a contractual health agency serving the Township of Little Falls.*

Phone: 973-470-5760  
Fax: 973-470-5768  
Email: [jbiegel@cliftonnj.org](mailto:jbiegel@cliftonnj.org)

- **If you have a fever, continue to stay home until you are fever-free for 24 hours without the use of fever-reducing medication and other symptoms improve.**

**\*Quarantine information updated by the NJ Department of Health on 1/7/2022\*:**

**You may have been exposed to COVID-19 if you were in close contact (within 6 feet for 15 minutes or more over 24-hours) with someone who had COVID-19, or if you participated in a high-risk activity such as attending large gatherings with people who may be unvaccinated.**

**If you are 18 or older and have received all recommended COVID-19 vaccines (received a booster dose, completed the two-dose series of Pfizer within the past 5 months or Moderna within the last 6 months, or have received your single shot of J&J vaccine within the last 2 months), OR if you are under 18 but fully vaccinated (completed the two-dose series of Pfizer), OR if you recovered from COVID-19 in the past 3 months:**

- **You do NOT need to quarantine. But you should wear a well-fitted mask around others for 10 days and get tested at least 5 days after the exposure (recently recovered persons do not need to test).**
- **If symptoms occur, or if you test positive, you should immediately isolate for at least 5 days after the date when symptoms began or the date of the positive test result.**

**If you are NOT up to date on your COVID-19 vaccines (unvaccinated, haven't completed a primary vaccine series, or are 18 or older and more than 5 months out from your second Pfizer dose or 6 months out from your second Moderna dose, or more than 2 months out from your J&J vaccine dose but haven't received a booster dose):**

- **You should stay home and quarantine for 5 days, monitor for symptoms, and get tested at least 5 days after exposure.**
- **After ending quarantine, for 5 additional days, you should wear a mask around others, delay travel, avoid persons at high-risk for severe illness, and avoid places where you can't wear a mask.**
- **If you are unable to wear a mask when around others, you should continue to quarantine for a full 10 days.**
- **If symptoms occur, you should immediately isolate until a negative test confirms symptoms are not attributable to COVID-19.**
- **If you test positive for COVID-19, you should isolate for 5 days from the date of the positive test result.**

### **\*TESTING INFORMATION\***

For a list of updated locations near you that are offering COVID-19 testing, please refer to this link for the most up-to-date information: <https://covid19.nj.gov/pages/testing#test-sites>. Simply put in your zip code, which will generate a number of testing locations near you. Each site should indicate if appointments are required and/or if walk-ups are accepted.

Additional testing information, including information on free public testing locations, can also be found here: <https://covid19.nj.gov/faqs/nj-information/testing-and-treatment/where-can-i-get-free-public-covid-19-testing-or-treatment>

The NJ Department of Health and Vault Medical Services have partnered to offer a free, at-home COVID-19 saliva test kit that is available to every New Jersey resident who thinks they need a test, even if they do not have symptoms. To order a free test kit, visit [learn.vaulthealth.com/nj](https://learn.vaulthealth.com/nj)

The kit will be shipped through UPS with next-day delivery. Once received, you will connect over Zoom with a Vault healthcare professional who will walk you through the test and answer your questions. When complete, the test can be sent back in a prepaid package via UPS next-day shipping. You will receive your test results 24 to 48 hours after your sample arrives at the lab. You will not be charged for the test, and you will not be asked for your credit card information.

As a reminder to residents, if you are being tested, remain home while awaiting your results, whether or not you're showing symptoms, to avoid potentially infecting other people.

### **\*VACCINATION INFORMATION\***

To schedule an appointment for a COVID-19 booster with the Clifton Health Department or for more information, please call the Health Department's COVID-19 hotline at 973-470-2039. Currently, the Clifton Health Department ONLY administers the Moderna vaccine. The Clifton Health Department Does NOT administer the Pfizer-BioNTech COVID-19 vaccine.

An updated list of locations offering COVID-19 vaccinations/boosters can be found here: <https://covid19.nj.gov/pages/finder>

Individuals are eligible to receive a booster if it has been at least two months since their one-dose Johnson & Johnson shot or at least five months after completing their two-dose

Fax: 973-470-5768  
Email: [jbiegel@cliftonnj.org](mailto:jbiegel@cliftonnj.org)

**Pfizer or Moderna vaccine series.**

**Eligible adults may choose which vaccine they receive as a booster dose. The CDC recommends that mRNA vaccines (e.g. Pfizer-BioNTech and Moderna) are preferred over the Johnson & Johnson (Janssen) vaccine for prevention of COVID-19 in adults.**

**\*ADDITIONAL INFORMATION/ RESOURCES\*:**

**All workers in health care facilities and high-risk congregate settings will no longer be permitted to submit to testing as an alternative to vaccination, except for the purposes of providing an accommodation for individuals exempt from vaccination, AND will be required to be up to date with their COVID-19 vaccinations, including having received a booster dose.**
