MESSAGE FROM THE HEALTH OFFICER

I am pleased to present the Clifton Health Department’s 2018 Annual Report. This publication highlights the Health Department’s accomplishments and challenges over the past year. I would like to dedicate this report in memory of Carol Prawetz, who served on the Board of Health as Vice President for many years. Carol was a dedicated volunteer throughout the Clifton community and is sorely missed.

I would like to thank Anthony Marrone for his dedication to the Health Department during his time here as REHS/HazMat Coordinator and wish him the best of luck in his new endeavor. I am thrilled to welcome back former Health Officer Albert Greco as a Board of Health Commissioner and Jennifer Terwilliger, REHS/HazMat Coordinator; I am excited about the expertise and experience that Albert and Jennifer bring to this Department.

The core functions of public health are Assessment, Policy Development and Assurance. This provides a continuous loop of identifying needs, and developing strategies and policies to meet those needs and making sure we are carrying them out in a way which positively impacts the needs identified.

The Clifton Health Department, in conjunction with its partners, completed a Community Health Assessment (CHA) during 2018 in order to provide a description of the current health status of Clifton and the challenges that we face as a community. This report is the culmination of more than one and half years of data collection and evaluation. This extensive process involved dozens of partners and hundreds of residents. The CHA draws on data and information gathered from four assessments recommended under the national Mobilizing for Action through Planning and Partnerships (MAPP) framework.

The CHA contains data that reflects our collective progress and our struggles as a community in areas associated with daily life. It is the goal of the CHA to describe the health needs and expectations of Clifton’s population and to identify areas for health improvement. The intent is that the data from this report will be used to target strategic initiatives focused on the areas of highest public health need and provide for service delivery prioritization. CHA data will be utilized to identify priority areas for action in the Health Department’s Community Health Improvement Plan (CHIP) and Strategic Plan. The emerging health issues that were identified in the CHA can be found in this report on pages 10-11, “CHA Snapshot.” The CHA document can be accessed on our website at www.cliftonnj.org/content/health-human-services.

The Health Department led the City’s homelessness prevention initiative and partnered with other municipal departments and non-profit organizations to conduct Clifton’s first
Point-In-Time / Project Homeless Connect event. The Health Department helped identify those residents who are homeless or at risk of becoming homeless and assisted them with accessing services. The Health Department also partnered with other City departments to secure $40,000 in grant funding from the Passaic County Homeless Trust Fund to provide case management services to the homeless population in Clifton.

I most sincerely thank the Health Department staff who continually strive for excellence and innovation. The many needs of the community cannot be met by the Health Department alone, so I would like to also thank the many agencies, hospitals, schools, and other community groups that help shape the great City of Clifton. I offer my gratitude to the Clifton City Council and Board of Health for their continued support and dedication.

As you can see, 2018 was a year of community partnership and community engagement. I hope that this publication provides our residents with an opportunity to learn about public health and the important role it plays in our daily lives.

I look forward to another year of commitment and accomplishment in delivering the highest quality public health services to the community. The Clifton Health Department remains committed to working diligently for the protection and improvement of our community’s health.

John E. Biegel, III
Health Officer
Director of Human Services

CLIFTON HEALTH DEPARTMENT MISSION STATEMENT

In partnership with the community, work to prevent disease, promote and protect health and well being, and enrich quality of life for those who live and work in our community.

CLIFTON HEALTH DEPARTMENT VISION STATEMENT

Healthy people making healthy choices in a healthy environment.

What Does Your Health Department Do?

Your local public health department protects and improves the health and well being of your community, as well as the environmental resources upon which we all depend.

- Animal Bites and Rabies Control
- Childhood Lead Poisoning Control
- Communicable Disease Control
- Emergency Preparedness and Response
- Health Education and Promotion
- Individualized Clinical Services
- Inquiries, Issues, and Complaint Investigations
- Kennels, Pet Shops, and Shelter/Pound Facilities
- Recreational Bathing Facilities
- Retail Food Establishment Safety
- School Immunization Record Audits
- Tanning Facility Safety
- Vaccination
- Youth Camps

During 2018, the Clifton Health Department also provided these local health services to the Township of Little Falls.

Your health department:

- Protects you from health threats. Your health department works to prevent disease outbreaks and makes sure the water you drink, the food you eat, and the air you breathe are all safe. We are also ready to respond to any health emergency - be it bioterrorism, SARS, Zika Virus, or a new environmental health hazard.

- Educates you and your neighbors about health issues. Your health department provides you with information that helps you make healthy decisions, like exercising more, eating right, quitting smoking, and washing your hands to protect yourself from communicable diseases. During a public health emergency, we also provide important alerts and warnings to protect your health.

- Provides healthy solutions. Your health department offers the preventative care you need to avoid disease and maintain your health. We provide flu shots for the elderly and help mothers get prenatal care to give their babies a healthy start. We also help provide uninsured children with regular check-ups, immunizations, and good nutrition to help them grow and learn.

- Advances community health. Your health department takes part in developing new policies and standards that address existing and emerging challenges to your community’s health while enforcing a range of laws to help keep you safe. We work through research and staff training to maintain expertise and deliver up-to-date, cutting-edge health problems.
Accreditation and Quality Improvement

Accreditation is a status that provides public notification that an institution, program, or agency meets standards of quality set forth by an accrediting agency. The accreditation process reflects the fact that the institution, agency or program is committed to self-study and external review by one’s peers. Accreditation has been widely accepted by many fields within the US including the healthcare system, schools, and social service agencies such as police and fire departments. Likewise, public health agencies need to demonstrate their accountability to their community, and measure agency performance against nationally-established standards. We need to move away from the old saying ‘when you’ve seen one health department, you’ve seen one health department’ and toward a place where regardless of where you live, you receive the same level of service from your governmental public health department.

The Public Health Accreditation Board, or PHAB, is a nonprofit organization dedicated to advancing the quality and performance of state, local, tribal, and territorial public health departments by providing a national framework of standards. PHAB has a vision of improving the quality and performance of all health departments in the U.S. through voluntary accreditation. The PHAB voluntary accreditation program emphasizes the importance of and is grounded in quality improvement, and has catalyzed health department activity in this arena. The process of preparing for and achieving accreditation yields information about the agency that can be used to identify areas of improvement. Once accredited, health departments maintain this status for 5 years.

The main component of the accreditation process is the documentation selection process, based on a set of standards and measures. These standards measure overall agency capacity as opposed to focusing on specific program areas such as preparedness or community health. The standards are primarily based on the 10 essential public health services, the Operational Definition of a Functions Local Health Department, the National Public Health Performance Standards Program, etc. In other words, they were developed based on already nationally recognized initiatives and went through extensive public comment. The standards are divided into 12 domains. The first 10 are based on the 10 essential services and the last two are based on agency administrative capacity and governance.

Domain 1: Conduct and disseminate assessments focused on population health status and public health issues facing the community

Domain 2: Investigate health problems and environmental public health hazards to protect the community

Domain 3: Inform and educate about public health issues and functions

Domain 4: Engage with the community to identify and address health problems

Domain 5: Develop public health policies and plans

Domain 6: Enforce public health laws and regulations

Domain 7: Promote strategies to improve access to healthcare services

Domain 8: Maintain a competent public health workforce

Domain 9: Evaluate and continuously improve processes, programs and interventions

Domain 10: Contribute to and apply the evidence base of public health

Domain 11: Maintain administrative and management capacity

Domain 12: Maintain capacity to engage the public health governing entity

The Clifton Health Department started the accreditation process in early 2015 and has officially registered with the Public Health Accreditation Board. The Health Department hopes to be accredited by the end of 2019. For any questions regarding accreditation, please contact Jennifer Kidd, Health Projects Coordinator, at 973-470-5774 or jkidd@cliftonnj.org.
The Clifton Health Department is committed to systematically evaluating and improving the quality of programs, processes, and services to achieve a high level of efficiency, effectiveness, and customer satisfaction. To achieve this culture of continuous improvement, quality improvement efforts target both department-level and program- or project-level issues. The 2018 QI Projects are:

WHAT IS A COMMUNITY HEALTH ASSESSMENT?
A community health assessment identifies and describes factors that affect the health of a community, and the available resources to address those factors.

WHY CONDUCT A COMMUNITY HEALTH ASSESSMENT?
1. Identify current and emerging health issues
2. Provide information to the community and local partners
3. Set the foundation for future programs, services, and grants

Clifton Animal Shelter

Animal Control in the City of Clifton

The City of Clifton Health Department strives to provide the best public health services to its citizens to improve the well-being of the public, including animals. The Animal Control Officers of the Clifton Health Department are compassionate animal welfare professionals. Our three (3) Animal Control Officers have many years of experience in all aspects of animal control services. Animal Control Officers enforce local and regional laws concerning the care and treatment of animals and educate the public about animal control safety.

Officers often respond to calls from citizens about stray animals and suspected animal cruelty. Sometimes, officers have to capture or rescue animals, but other times administer warnings or citations to citizens suspected of animal cruelty and mistreatment. Clifton’s Animal Control Officers possess superior attention to detail and knowledge of New Jersey sheltering, animal control laws and regulations, animal health, animal well-being, including nutritional needs, resources for information, knowledge of common animal disease and treatments, skills in animal first-aid, and CPR.

Animal Control Officers also ensure that all dogs living in the City of Clifton are registered. As per City Ordinance, 203-2, “Any resident who shall own, keep or harbor a dog of licensing age (6 months or older) in the City of Clifton shall, in the month of January of each year, apply from the Clifton Health Department, a license and official metal registration tag for each dog owned, and shall place upon each dog on their collar or harness.” The Clifton Health Department offers rabies clinics for dogs twice a year (spring and fall) and cats once per year (spring). Little Falls has one clinic in the spring for dogs and cats. All animals can get vaccinated against this deadly disease.

ANIMAL COMPLAINTS:
Wild animal problems & bites. Call 973-470-5760.

DOG LICENSING:
Call 973-470-5760.

LOST/FOUND & UNWANTED ANIMALS:
Call 973-470-5761.

PET ADOPTION:
Call 973-470-5936.  
(Monday - Friday, 6:30 PM - 8:30 PM; Sundays, 12:00 PM—4:00 PM)

RABIES IMMUNIZATION CLINIC:
Held in May & November of each year.

Clifton Animal Shelter
ANIMAL CONTROL SERVICES  To protect individuals and their domestic animals, Animal Control Officers are responsible for collecting and impounding lost pets, stray domestic animals, and sick, injured, or dangerous animals. The Clifton Health Department either coordinates with or directly supervises Animal Control Officers to prevent the spread of rabies and to ensure that anyone potentially exposed to rabies receives prompt treatment.

For more information, contact John Tauber at 973-470-5761 or jtauber@cliftonnj.org.

The Clifton Health Department provides Animal Control Services to the following Municipalities:

City of Clifton  
Township of Little Falls  
Borough of Wallington

ANIMAL BITES AND RABIES CONTROL  Persons who are bitten by an animal or come in contact with a suspect rabid animal should notify the Clifton Health Department immediately.

For more information, contact John Tauber at 973-470-5761 or jtauber@cliftonnj.org.

MUNICIPAL SHELTER OPERATIONS

The Clifton Animal Shelter specializes in finding forever adoptive homes for homeless cats, dogs, kittens, and puppies. You can call them to adopt a new pet, visit the shelter, or fill out an adoption application online. The Friends of the Shelter are a non-profit 501 (c) volunteer organization, and your donations are tax deductible.

The Clifton Health Department provides Animal Shelter Services to the following Municipalities:

- City of Clifton
- Township of Little Falls
- Borough of Wallington

| Total number of complaint investigations: Nuisance Wildlife | 152 |
PET LICENSING  All municipalities in New Jersey are responsible for licensing domestic dogs, to ensure that dogs and the people they interact with are protected from rabies. Pet licensing programs also help to quickly reunite lost pets with their owners. In the City of Clifton, the local health department manages the pet licensing program.

For more information, contact Victoria Kaufman at 973-470-5770 or vkaufman@cliftonnj.org.

The number of dogs licensed during the year of 2018: 2,980.

**BUG IDENTIFICATION:**
Ticks, bed bugs, roaches, beetles, etc.

**ENVIRONMENTAL COMPLAINTS/ SURVEILLANCE:**
Air, water, noise, heat, solid waste, & general public health nuisances.

**ENVIRONMENTAL INFORMATION:**
Provide general & technical information on chemical & physical materials, including radon, asbestos, lead & others.

**LEAD POISONING RISK ASSESSMENTS & INSPECTIONS:**
Lead information. Provide testing for lead paint on premises of children with elevated blood lead levels when referred by the State Health Department.

**FOOD ESTABLISHMENT SERVICES:**
Food safety & food service inspections, investigate complaints, present food handling courses for employees.

**HAZARDOUS MATERIALS:**
Respond to & investigate situations involving hazardous materials, including bioterrorism.

**PUBLIC POOL/SPA INSPECTIONS:**
Conduct inspections & complaint investigations. Obtain water quality reports weekly.

**RODENT CONTROL:**
Provide evaluation & advisement to remedy rodent problems. Provide baiting of public parks & other city properties.

**RIGHT TO KNOW/HAZARD COMMUNICATIONS TRAINING:**
The following efforts are headed by our Hazmat Coordinator: Implementing & maintaining the Community Right To Know Surveys, organizing the Hazardous Materials Control Board, training & educating at risk city employees who work with potentially hazardous materials.
FOOD ESTABLISHMENTS  Local health departments inspect and regulate restaurants, grocery stores, and other retail food facilities to ensure compliance with safety and sanitation rules. Local health departments also investigate and control disease outbreaks linked to retail food facilities.

For more information, contact Nino Intili at 973-470-5765 or nintili@cliftonnj.org.

The Health Department strives to inspect every food retail establishment within its jurisdiction each year based upon State laws and regulations including the Chapter 24 “Sanitation in Retail Food Establishments” (N.J.A.C 8:24) of the state sanitary code and local ordinances.

What Does Risk Level Mean?

"Risk type 1 food establishment" means any retail food establishment that:
1. Serves or sells only pre-packaged, non potentially hazardous foods;
2. Prepares only non-potentially hazardous foods; or
3. Heats only commercially processed, potentially hazardous foods for hot holding and does not cool potentially hazardous foods. Such retail establishments may include, but are not limited to, convenience store operations, hot dog carts, and coffee shops.

"Risk type 2 food establishment" means any retail food establishment that has a limited menu; and
1. Prepares, cooks, and serves most products immediately;
2. Exercises hot and cold holding of potentially hazardous foods after preparation or cooking; or
3. Limits the complex preparation of potentially hazardous foods, including the cooking, cooling, and reheating for hot holding, to two or fewer items. Such retail establishments may include, but are not limited to, retail food store operations, schools that do not serve a highly susceptible population, and quick service operations, depending on the menu and preparation procedures.

"Risk Type 3 food establishment" means any retail food establishment that:
1. Has an extensive menu which requires the handling of raw ingredients; and is involved in the complex preparation of menu items that includes the cooking, cooling, and reheating of at least three or more potentially hazardous foods; or
2. Prepares and serves potentially hazardous foods including the extensive handling of raw ingredients; and whose primary service population is a highly susceptible population. Such establishments may include, but are not limited to, full service restaurants, diners, commissaries, and catering operations; or hospitals, nursing homes, and preschools preparing and serving potentially hazardous foods.

"Risk type 4 food establishment" means a retail food establishment that:
conducts specialized processes such as smoking, curing, canning, bottling, acidification designed to control pathogen proliferation, or any reduced oxygen packaging intended for extended shelf-life where such activities may require the assistance of a trained food technologist. Such establishments include those establishments conducting specialized processing at retail.

What Do These Placards Mean?

“Satisfactory” = Establishment is in compliance with Chapter 24 food safety and sanitation principles.

“Conditionally Satisfactory” = Establishment is not in complete compliance with Chapter 24 food safety and sanitation principles, and is in violation of one or more provisions of this chapter. A re-inspection will be needed.

“Unsatisfactory” = Establishment has been found to have multiple violations that are not in compliance with Chapter 24 food safety and sanitation principles which can pose a health hazard.
Local health departments assist residents in the resolution of quality of life questions and concerns, as well as conducting investigations to prevent and correct (“abate”) conditions or uses of properties that interfere with neighbors’ use or enjoyment of their own properties or endanger life, health or safety.

For more information, contact Nino Intili at 973-470-5765 or nintili@cliftonnj.org.

HAZARDOUS MATERIALS CONTROL BOARD  The Hazardous Materials Control Board was established in and for the City of Clifton, which Board shall serve without compensation in matters touching on and concerning the prevention and control of hazardous chemicals and materials. It is also known and designated as the “Local Emergency Planning Committee” (LEPC) AS PER FEDERAL REGULATION. The Board makes recommendations to ensure that storage and use of hazardous chemicals in Clifton are done in accordance to federal, state and local laws to ensure the safety of the residents and businesses in Clifton. Any new businesses entering Clifton (through Building Department CBC applications must report any hazardous materials that will be used or stored onsite via HMCB application and Fire Department Inventory Sheet.)

For more information, contact Jennifer Terwilliger at 973-470-5769 or jterwilliger@cliftonnj.org.

ENVIRONMENTAL COMMISSION  Established by municipal resolution, the Clifton Environmental Commission is an advisory body composed of Clifton residents appointed by the Mayor. It is comprised of 7 regular members and 2 alternates including a member of the Clifton Planning Board. All commissioners serve one, two and three-year terms. The role of the Commission is to study, evaluate, and make recommendations to the City Council regarding local environmental issues, including (but not limited to):

- solid waste management and recycling;
- clean water resources;
- storm water management;
- energy conservation and renewable energy resources;
- air, noise, and light pollution control;
- preservation and use of parks and other open spaces;
- land use;
- and protection of flora, fauna, soil, and landscape throughout the City of Clifton.

The Commission also conducts research and coordinates activities regarding the use and potential use of open land areas, including recommendations to the City Council for acquisitions of open space. It also serves as a watchdog for environmental concerns opportunities within the City. The Clifton Environmental Commission also provides environmental education to residents.

For more information, contact Jennifer Terwilliger at 973-470-5769 or jterwilliger@cliftonnj.org.
• Provides accurate information about ways to make healthy behavior changes.
• Using pamphlets, flyers, public service announcements, programs, website, & social media, we provide information to the public to help citizens make wise decisions about their health.
• Plays a vital role in developing new policies & standards that address existing & emerging challenges to our community’s health.
• Deliver progressive health programs for residents ranging from children to seniors through health research & training staff to maintain exceptional expertise.

SCHOOL HEALTH EDUCATION:
Available to non-public & public schools for program consultation & implementation.

SPEAKER SERVICE:
Programs on a variety of health topics to various types of groups.

HEALTH INFORMATION:
Provide & distribute educational materials on various health topics to help individuals make wise health decisions.

EMERGENCY PREPAREDNESS:
We focus on minimizing the health threats from public health emergencies. We are dedicated to educating citizens on how to prepare for & protect themselves during public health emergencies including those from chemicals, biological, radiological, nuclear & explosives.

PANDEMIC INFORMATION:
Information, programs & presentations are available on previous historic pandemics, current pandemic events & predicted future events. Please speak to our health educators to plan an event that will meet your specific needs.

SMOKING/VAPING PREVENTION PROGRAMS

FITNESS & NUTRITION

EDUCATION BLOODBORNE PATHOGENS:
Required training for at risk city employees who may come in contact with blood & other potentially infectious material.
EMERGENCY PREPAREDNESS AND RESPONSE

Local Health Departments monitor the community for infectious or communicable diseases, public health nursing and case investigation & disease outbreak prevention and mitigation, health education/risk communication, partnerships with traditional and non-traditional emergency responders and the community-at-large, and environmental contamination mitigation post-event (natural or manmade disasters).

For more information, contact Layal Helwani at 973-470-5773 or lhelwani@cliftonnj.org.

The Clifton Health Department has an updated continuity of operations plan.

The Clifton Health Department has updated plans to respond to the following types of emergencies that involve:

- Retail food safety
- Multi-family housing
- Food-borne disease outbreaks
- Infectious disease outbreaks
- Hazardous material spills
- Raw sewage spills
- Isolation and quarantine to prevent the spread of dangerous illnesses
- Major natural disasters
- Potential bioterrorism exposures
- Radiological release events

The Clifton Health Department’s response plans include extra precautions and preparations to protect populations at greatest risk for the above-mentioned emergencies.
HEALTH EDUCATION AND PROMOTION

Health Education occurs throughout all local health department programs, with a focus on providing education and health promotion services that help the public make informed decisions about their health. Health education programs and activities help the community achieve a healthier lifestyle and promote healthy behavior.

For more information, contact Layal Helwani at 973-470-5773 or lhelwani@cliftonnj.org.

- Local Print Newspapers/Newsletters
- Local Online Newspapers/Newsletters
- Municipal/County/Local Health Department E-Mail Distribution List
CLEAN AIR CLIFTON  In 2018, the Clifton Health Department continued its implementation of the Clean Air Clifton Anti-Idling Campaign. The City of Clifton was awarded a $2,000 Sustainable Jersey capacity-building grant funded by the PSEG Foundation to implement an anti-idling campaign throughout the City.

Health Educator Layal Helwani continued efforts to educate community members on the consequences of vehicle idling. Six additional presentations were offered to various groups, including the Passaic/Clifton Lions Club, parents, children, City Council members and other residents. Anti-idling infographics, keychains, Turn your Key Be Idle-Free car magnets, and New Jersey Department of Environmental Protection “No Idling Zone” signs were also distributed at various sites, including Main Memorial Library, Allwood Library, City Hall, and City Green. The Health Department also continued to engage residents with educational posts on the consequences of vehicle idling through its Facebook and Instagram pages, targeting an average of 765 people.

In addition, fifth grade students in the City of Clifton’s elementary schools were invited to participate in a poster contest and were challenged to create posters that depict vehicle idling and its negative impact on the environment and/or human health. In total, 10 students from School #3, School #11, and School #15 participated and each student was recognized at a City Council meeting held on June 19, 2018.

ELECTRONIC CIGARETTES AND JUULING  In February 2018, Health Officer John Biegel, III and Health Educator Layal Helwani collaborated with Vinny Smith, Health Educator for Horizon NJ Health, to prepare and deliver a presentation titled “Electronic Cigarettes and Tobacco Products: Hidden Dangers and Implications for Public Health.” The presentation was given to approximately 40 public health professionals and members of the Essex-Passaic Wellness Coalition.

Layal also launched a large-scale effort to continue educating the City of Clifton’s and Township of Little Falls’ youth on the dangers of JUULing. In total, 26 programs were implemented throughout the year, targeting over 2,000 students at Christopher Columbus Middle School, Woodrow Wilson Middle School, and Clifton High School in the City of Clifton, and School #1 in the Township of Little Falls.
City Green’s Veggie Mobile visited Clifton City Hall during the summer and fall of 2018 for another successful season! The Newman’s Own Foundation recently awarded a grant to City Green in the amount of $35,000. The grant funded the purchase and operation of a City Green Veggie Mobile, a mobile farmer’s market vehicle that allows the non-profit to sell local and organic produce in previously inaccessible neighborhoods and communities. The Veggie Mobile is a specially equipped refrigerated van that can safely and effectively transport fruits and vegetables around urban New Jersey. The USDA also participated in generously funding the City Green Veggie Mobile.

Over 20 markets were held between June and November of 2018. A total of over 750 local residents and employees stopped by the Veggie Mobile to learn more about the different types of produce City Green offers, make purchases, and to try various types of produce.

Each week, the Health Education division set up a table to offer education on the various types of produce featured that week. Health Department staff also prepared various dishes using ingredients from City Green to demonstrate to residents how easy it is to incorporate healthy dishes into their everyday diets. Free samples of dishes including radish salsa, sautéed kale and chickpeas, apple cinnamon yogurt parfaits, zucchini brownies, tabbouleh, and pumpkin muffins were prepared and offered to residents.
• Communicable disease control: hepatitis, meningitis, salmonella, shigella, pertussis, & others.
• Childhood Lead Case Management.
• Immunization Audits of daycares, preschools and schools
• Referrals for home health problems, adult immunizations, TB testing, low cost health services, & screenings for STDs & female cancer.

Our clinics and screenings are available to Clifton and Little Falls residents.

**Clinical Services (By Appointment Only)**

**BODY MASS INDEX SCREENING***:
This screening will help assess your risk for developing overweight or obesity & associated diseases.

**BONE DENSITY SCREENING***:
An ultrasound of the forearm identifies people at risk for osteoporosis.

**BLOOD DRIVE***:
Blood donation opportunity held at least twice a year.

**BLOOD LEAD SCREENING***:
Held to identify children who are at risk for elevated blood lead levels.

**BLOOD PRESSURE SCREENING***:
Please call for appointment.

**CARDIAC ASSESSMENT***:
Learn your cardiac risk through cholesterol testing, blood pressure, BMI/Body fat composition, & waist circumference.

**CHOLESTEROL & GLUCOSE SCREENING***:
Blood test for total cholesterol, HDL, LDL & triglycerides; blood test for glucose.

**DENTAL CLINIC***:
Available to school age children without dental insurance.

**FLU CLINIC***:
Influenza shots for adults & children.

**HEARING SCREENING***:
Screening to determine if more extensive hearing tests are required.

**IMMUNIZATION CLINIC***:
Required immunizations for pre-school & school age children who are uninsured or have Medicaid Part A.

**MEMORY ASSESSMENT***:
Are you absent minded lately or is it something more serious? Join us for a one-on-one memory assessment to address memory loss, risks & hygiene.

**ORAL CANCER SCREENING***:
Examination of teeth, gums, tongue, & cheeks for pre-cancerous lesions.

**PODIATRY SCREENING***:
Screening for abnormalities of the foot & ankle.

**PROSTATE SCREENING***:
PSA blood test & digital rectal exam for men between ages 50 - 75 years old.

**SKIN CANCER SCREENING***:
Screening for skin abnormalities.

**STROKE SCREENINGS***:
Evaluate your risk for stroke through cholesterol testing, blood pressure, pulse check, carotid artery assessment & stroke-related counseling.

**VEIN SCREENINGS***:
Free blood circulation education & lower leg vascular ultrasound demonstration.

**VISION SCREENING***:
Examination for cataracts, glaucoma, & vision difficulties. No prescription given.

**WELL BABY CLINIC***:

*This screening indicates it is co-sponsored with an outside agency.*
COMMUNICABLE DISEASE CONTROL  The Clifton Health Department provides communicable disease surveillance 365 days a year, 24 hours a day. Communicable disease surveillance epitomizes the public health motto, “Prevent, Promote, Protect.” Individual case-finding reduces the risk through monitoring and education, maximizing the health of our public by minimizing the spread of communicable disease.

For more information, contact Leslie Leonard at 973-470-5777 or lleonard@cliftonnj.org.

CHILDHOOD LEAD POISONING PREVENTION AND CONTROL  The Clifton Health Department provides nursing case management and full environmental intervention for children with elevated blood lead levels.

For more information, contact Leslie Leonard at 973-470-5777 or lleonard@cliftonnj.org.

Lead is especially dangerous to children under the age of 6. At this age, children’s brains and nervous systems are extra sensitive to the damaging effects of lead. Children’s growing bodies tend to absorb more lead. Whenever the State of New Jersey Department of Health receives a report from a laboratory of a blood lead level of 5 µg/dL or greater in a child, the State of New Jersey Department of Health shall notify the local health department in whose jurisdiction the child resides through the Childhood Lead Poisoning Information Database as set forth at N.J.A.C 8:51-10. If a child has a confirmed blood lead level of 5 µg/dL or greater, the local health department shall provide case management of the child and his or her family.
INDIVIDUAL CLINIC SERVICES  As part of our mission to assure that all people have access to essential health services, local health departments provide a variety of individual, clinical services such as screenings and checkups, referrals to appropriate medical care, and primary medical care and follow-up.

For more information, contact Leslie Leonard at 973-470-5777 or lleonard@cliftonnj.org.
